SUMMARY

Passionate **Software Developer** with expertise in **Python, SQL, and web development**. Experienced in **frontend** (HTML, CSS, JavaScript), **backend** (Flask, Python), and **database** management (MySQL). Skilled in **data analysis** and **machine learning**, with a focus on optimizing applications and solving real-world problems. This concise summary quickly highlights your key skills and experience.

WORK EXPERIENCE

Bliinc Innovation

Software Intern

oct 2023 - Aug 2024

- Developed and maintained applications using **Python, Flask, and SQL**.
- Contributed to **ecommerce data analysis** projects using **Pandas** and **Plotly** for visual insights.
- Assisted in building a **patient data entry system** and integrated APIs to enhance functionality.
- Optimized backend processes, improving performance by 25%.
- Collaborated in **Agile** teams, participating in sprints and code reviews.

EDUCATION

Smt. Radhikatai Pandav College Of Engineering

Bachelor of Technology - Computer Engineering - 8.47

2020 - 2024

Pandit Bachharaj Vyas Vidyalaya

HSC - 65%

2019 - 2020

SSC - 77%

2017 - 2018

PROJECT

Spam Message Classifier Web App

- Built a web app using **Python** and **Streamlit** to classify messages as **Spam** or **Ham** with 90% accuracy.

Ecommerce Data Analysis

- Analyzed **ecommerce** data with **Python, Pandas, and Plotly**, generating insights on sales and profits through interactive dashboards.

Personal Finance Tracker

- Developed a **finance tracking** app using **Flask** and **JavaScript**, optimizing performance and reducing processing time by 25%.

Patient Data Entry System

- Created a **patient data entry** system using **Python** and **SQL**, improving data collection and management efficiency.

SKILLS

- **Frontend:** HTML, CSS, JavaScript, React
- **Backend:** Python, C++, Java, Flask, Node.js
- **Database:** MySQL, SQLite, SQL
- **Cloud:** AWS (Basic), Heroku
- **AI/ML:** Python (Scikit-learn, Pandas), Machine Learning, Natural Language Processing (NLP)
